REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claim 23 recites the combination of a shifting element system comprising a first shifting element, a free wheel arranged connected in the manner described in the first paragraph of the claim. Also, claim 23 recites that the input and output elements of the first shifting element, discs of the first shifting element, the free wheel and the input and the output elements of the free wheel form a pre-assembled unit, and a free-wheel sprag unit of the free wheel has one bent elastic holding device by which the input element of the free wheel, both during and after assembly of the pre-assembled unit in the transmission, is axially movably fixed opposite the output element of the first shifting element (10). The aforementioned combination is not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
